

Test Rule

```
package org.sw.rules;

rule "Hello World"
    when
        eval(true)
    then
        System.out.println("Hello, World!");
    end
```

Session Setup

```
<?xml version="1.0" encoding="UTF-8"?>

<kmodule xmlns="http://jboss.org/kie/6.0.0/kmodule">
    <kbase name="rules" packages="org.sw.rules">
        <ksession name="Session01" type="stateless"/>
    </kbase>
</kmodule>
```

Main Java Class

```
package org.sw;

import org.kie.api.KieServices;
import org.kie.api.runtime.KieContainer;
import org.kie.api.runtime.StatelessKieSession;

public class Main {
    public static void main(String[] args) {
        KieContainer kieContainer =
KieServices.Factory.get().getKieClasspathContainer();
        StatelessKieSession kieSession =
kieContainer.newStatelessKieSession("Session01");
        System.out.println("==== DROOLS SESSION START ==== ");
        kieSession.execute("HelloWorld");
        System.out.println("==== DROOLS SESSION FINISH ==== ");
    }
}
```
